## How To Use The Employment Data Report

### 1. Share this with Families, Self-Advocates, Board Members, Family Support Councils, and Staff.

This data report is meant to be a tool to be used for more in-depth discussions about employment efforts regionally and statewide. Please ask questions if there is any information you don't understand. This is a great opportunity for each agency to share information about how it promotes employment and what opportunities and services are available.

The data can be very helpful to individuals and families in trying to select an employment provider. However, it is important to understand that there are more factors to consider when selecting a provider than just performance data alone. Here are some things to consider:

- Does this provider promote employment?
- Does this provider have staff who have been trained using the statewide curriculum called ACRE or who hold a national certification as a Certified Employment Support Professional?
- Does this provider specialize in placing people in specific industries?
- Does this provider serve a high number of people with the most significant disabilities?
- Does this provider offer career development services?
- Does this provider offer any structured skills training opportunities?
- Talk to other families about their satisfaction with various providers.

### 2. Use this report to set goals with staff, your region, your Board, and for your strategic plans.

Don't forget, Area Agencies can generate their own regional report at any time using our new employment data system. The Bureau will generate Employment Reports on a quarterly basis. The next report will be released in September 2017.

### 3. Host an Employment Event. Invite a Panel of Employed Self-Advocates to talk about their work experience, the process they went through to achieve employment, and the impact being employed has had in their life.

Also invite:

- Employment staff to talk about your region's efforts and commitment to employment;
- Employment vendors so they can meet the various employment providers;
- Invite a panel of local employers to talk about how hiring an inclusive workforce makes good business sense;
- Work incentives specialists to talk about the impact of earning income on benefits

Almost everyone who works is financially better off earning income than just receiving benefits. Talk to a work incentives specialist; they will show you the math. You can also visit [www.nhwirc.org](http://www.nhwirc.org) to learn more about work incentives and how to find a trained work incentive specialist.

## **About the Program**

The Bureau of Developmental Services (BDS) joins communities and families in providing opportunities for citizens with developmental disabilities or acquired brain disorders to achieve health and independence. In partnership with individuals, families, and community-based service networks, BDS affirms the vision that all citizens should participate in the life of their community while receiving the supports they need to be productive and valued community members.
